EC GRT fired for raping student?

One of my friends recently told me that a GRT at East Campus was dismissed for multiple counts of alleged sexual assault. Does anyone have any more information about this? Is the perpetrator still a student here? When I asked my GRT, they said they couldn't say anything even if they knew, which felt suspiciously vague.

Can confirm this happened, and the piece of shit perpetrator is still a student here. I don't think criminal action was pursued.

I feel if it were true students would have received notification under the Cleary Act. It wouldn't mention if it was a grt or not, but there still would have been notification of reported sexual assault
